VIVA Chocolate Dispenser (chocolate beverage machine)

The microprocessor-controlled chocolate beverage machine in VIVA design for producing chocolate beverages offers two output quantities (self-service variant: 1 output quantity). Metering range is 35 g / 140 ccm cup. The chocolate drink powder is stored in a container with a capacity of 2 kg. The bremer VIVA Chocolate Dispenser can be connected to a VIVA Coffee Machine or it can be used as a standalone device. The chocolate powder level is checked by an integrated level monitor. The top storage tray of the bremer VIVA Chocolate Dispenser can be used to store cups.

Technical data:

Hourly performance:	220 cups
Chocolate beverage	110 small pots
Weight:	25 kg
Connection values:	3.5 kW 230 V 1 N AC 50 Hz
Water infeed / outlet:	R 1/2" DN 13; DN 16
Dimensions:	240 x 560 x 600 mm (W x D x H)
Article no.:	VIVA Chocolate Dispenser 882011
