Coin Checker CF330

The coin checker in the attachment unit is suitable for the self-service coffee bar with tendered coins and tokens. The coin checker can handle multiple prices, 6 different coins and is electronic. The coin checker can be set for all common currencies and is ready for the euro changeover. The unit can also be operated with tokens instead of coins.

The coin drawer can be accessed from outside and is secured by a lock. The unit is attached directly onto the coffee machine. An internal control system counter makes it possible to keep track of all procured products.

Attachment unit dimensions: 120 x 430 x 500 mm (W x D x H)
